Japan Horseback Riding

15D/14N

Cultural Discovery & Horse-riding

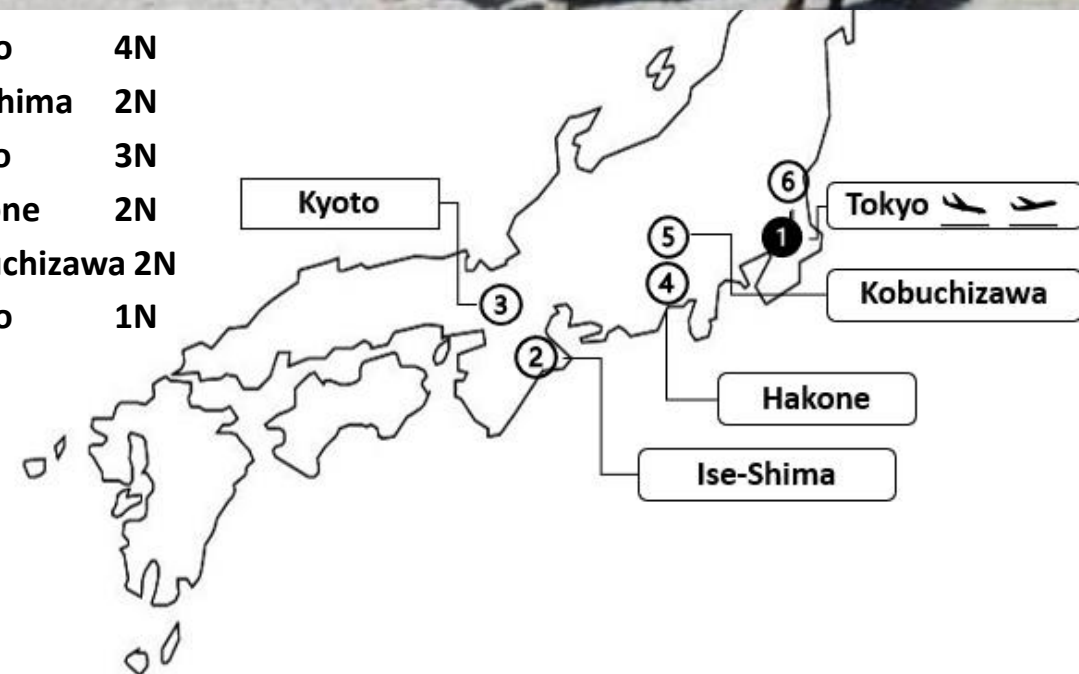

Although the common image of Japan is “mega-cities” once you leave the dense urban areas, a great countryside with nature and a wide variety of landscapes awaits: from beach to mountain and flatlands to forests.

This itinerary has been designed as a perfect combination of essential sightseeing with exciting horseback riding opportunities.

Discover Japan's most important sightseeing destinations before enjoying the beautiful resort of Amanemu. In between sightseeing days, enjoy horseriding on the beachside of Chiba and Ise-Shima, at the foothills of Mt Fuji and in the Japanese Alps.
